The Future Is Now!

Environmentally Responsible Awards & Promotional Products

- **Lead-Free metals** offered in all product lines to ensure that the participants in your events are getting the safest products - they deserve the best!
- **No worries** about product safety
- **Domestic production** in safe and regulated factories
- **Keeping jobs** in North America
- **Competitive prices** that also allow you to feel good about purchases - saves money and makes sense!
- **Water based sprays** replace solvents in the application of any lacquers - reduces emissions sent into the atmosphere - doing our part to help everyone breathe easier!
- **Innovative E-Coat process** uses only water based finishes on 'lead-free' materials - environmentally safe and allows for economically finished goods
- **Popular Electro-plated process** utilizes various water re-use systems to reduce or eliminate discharge - keeping ground water and treatment systems clean
- **Focus on 'domestic' production** to reduce potential for water and air pollution associated with container ships and air transport from Asian suppliers - why not keep the jobs at home and employ more North Americans - our kid's futures may depend on it!
- **Packaging materials all recycled** and re-used to reduce stress on paper and wood products
- **Compliance with California Proposition 65** - Processes and materials are compliant with the Safe Drinking Water and Toxic Enforcement Act of 1986.
